PRESENTATION TIPS

To make your career presentation as engaging and interactive as possible, we suggest using video, demonstrations, visuals, humor and activities. If you want to toss around some ideas, we are happy to chat. Consider the following:

- Challenges, epiphanies, triumphs, and unforgettable lessons along your career path
- As an expert in your field/industry – what does the future look like? What are your company's 10, 20, 50 year goals and how can our students prepare themselves to be part of these solutions?
- What are the rewards of your job/profession?
- The path you took to get where you are
- What your career looks like through an environmental lens: How does it impact the human or natural environment? Are you improving your community's health or reducing the carbon footprint? Are there policies or actions you or your organization can/are taking to support sustainability?

SPONSORSHIP

There are opportunities for sponsoring ECHS Career Day. All sponsorships are considered donations and are tax-deductible. Environmental Charters Schools is a 501(c)(3) non-profit organization. **Contact Alli_Takido@ecsonline.org.**
