

Environmental
Charter Schools

WE ARE GROWING! OPENING 2013-2014 ECMS-INGLEWOOD

OUR MISSION

Environmental Charter Schools (ECS) is a growing network of free public schools in underserved communities of south Los Angeles. ECS prepares students for four-year colleges through a focus on experiential learning and by using the environment as a way to both engage students in a project-based learning and prepare them to become leaders in their communities.

OUR TEAM

ECS provides a dynamic and collaborative environment where teachers, administrators and partners work together to create authentic, innovative, experiential programs with measureable results both inside and outside the classroom. Our team culture empowers educators to design curriculum, analyze student work, evaluate data, reflect on their practice, and create partnerships with local non-profits to ensure deeper and more relevant student learning.
